

constructors

secondary constructors

cannot declare properties

has to call another constructor

```
class Client(val name: String) {  
    var birthdate: LocalDate? = null  
}
```

```
constructor(name: String, birthdate: LocalDate) : this(name) {  
    this.birthdate = birthdate  
}  
}
```

Constructors

secondary constructors

```
class Client(val name: String) {  
    var birthdate: LocalDate? = null
```

cannot declare properties

```
    constructor(name: String, birthdate: LocalDate) : this(name) {  
        this.birthdate = birthdate  
    }  
}
```

has to call another constructor
